

# TERM7

anonymous digital clairvoyant and privacy advisor  
to be found now.here

Term7 can help you to defend yourself online! Reclaim your online privacy now, with Tor and VPN services you can trust. Circumvent censorship. Block ads and other malicious content. Free your Android from Google and install your own private cloud. Use FOSS (free and open-source software) & stop services that harvest your data. Only you should be in control! Delete your digital traces and minimize your online footprint. Learn to use encrypted communications via XMPP & Matrix. Use Mastodon as an alternative social media platform. Setup unbreakable encryption for your email via PGP, block unwanted emails and secure your passwords. Make use of anonymous payment solutions powered by Cryptocurrencies and Smart Contracts & secure your funds.
